And establishment in her civic porfolio of caregiver analogy of immunization.

- Reinforce your main point with facts.
- The next phase is all about maintaining a positive relationship with the community. You see to use the embedded model correctly you create a give and take relationship with the community. You offer your solution to local entrepreneurs. In turn other enterprises arise around the the solution that you have provided. In the end what your organization ends up doing is building a

local economy. This adds even more value to the lives of the people in the community and in turn builds a local sense of responsibility and an awareness by the communities that you support the part your organization had in this development. In turn leading to more brand loyalty.

- Embedded web content makes a great addition to this section.
